

## Fidium Fiber is perfect for the ultimate smart home

With speeds including **1 Gig**, you can connect all your TVs, smartphones, laptops, tablets and smart home devices all the time.

When it comes to your doorbell talking to your Alexa, or changing the thermostat using your iPhone, we totally get your need for a fully-networked super-smart home.

With **Gig fiber internet** you can connect your doorbell cams, motion detectors, outdoor lights, alarms and more.

Your **dedicated fiber internet connection** is strong enough to enable you to play your entire music collection throughout your home, see what's in the fridge and order takeout all by voice command.

**No data cap** means no limits, so adjust your thermostat, change the lighting and unlock the front door over WiFi whenever you want.

Whatever makes your home intelligent, Fidium Fiber offers reliable internet service that never slows down—making sure everyone and everything stays connected.

## What it means to raise your expectations of your internet provider

Fidium Fiber is changing the way customers look at their internet provider. With ultra-fast speeds, straight-up pricing, and none of the typical ISP sneakiness, we think you'll enjoy every bit of this new experience.

## What makes Fidium Fiber internet different?

Let's take a peek at what we bring to the table that other internet providers don't.

**The biggest difference is the experience.** You get a dedicated internet connection to your home that offers the same upload and download speeds, as well as whole-home WiFi. But we also think you'll notice a difference in how we interact...you and us. Because we want it to be completely comfy.

- No data cap because data caps are awful
- No bundling anything for our best prices (see not being awful)
- An eBill you can easily read and understand, with no hidden fees
- Our totally awesome, easy-to-use mobile app: Attune™ WiFi
- Tech Gurus who solve problems and are actually pleasant to talk to

## Streaming TV service as an add-on

**Our featured TV partners offer special pricing—no bundling required:**

Everything you want from TV, minus what you don't.

- The best of Live TV and On Demand on all your favorite screens
- No dish, no cable box, no installers
- Sign up and start streaming instantly

- 100+ channels available + premium, sports, local and international add-ons
- Designed for the sports lover with a mix of entertainment & news channels
- Live and On Demand
- No contract, no hidden fees

- 60+ channels available + premium add-ons
- Designed for the entertainment, lifestyle and drama lover
- Live and On Demand
- No contract, no hidden fees, budget-friendly

**All streaming services are supported by Fidium Fiber internet, including these popular choices:**

## Home phone through your internet service

You can add home phone service to include unlimited local, nationwide long distance, and international calling to the U.S. Virgin Islands, Canada, Guam, Puerto Rico and the Mariana Islands. Additional areas are standard per-minute charges.

**Check out some of the convenient features you get:**

**Call forwarding** - Forward your calls to any other phone or smart device

**Call waiting** - You'll be signaled if you have another call coming in

**Caller ID** - Your caller's number will appear on your designated devices

**Call blocking** - Block spam, set to do not disturb, anonymously reject calls

**Voicemail** - Voicemail is included, all voicemails automatically go to your email, too

**Emergency services** - Your phone automatically connects your address to emergency services
